## TRAINING

Based on the *Practical Handbook on EU Family Law Part 1: Key Concepts, Legal Terminology, and CJEU Case Law in Cross-Border Judicial Cooperation*

By Nadia Rusinova, 2025

### About the Training

This training is based on the **Practical Handbook on EU Family Law** (2025) and offers a concept-driven approach to cross-border judicial cooperation.

It is designed for professionals who apply, interpret, or translate EU family law in practice—whether in courtrooms, or multilingual legal environments.

### For Whom?

- Judges, lawyers, court staff, notaries
- Legal translators and interpreters
- Government and EU institutions
- Academic programs and legal trainers

## Why Choose This Training?

Unlike traditional article-by-article instruction, this training is structured around key legal concepts and their cross-instrument application.

It draws from the full body of relevant instruments, including the Brussels IIb Regulation (2019/1111), Rome III Regulation (1259/2010), Maintenance Regulation (4/2009), and the relevant Hague Conventions.

The training puts special focus on the role of terminology, the Court of Justice of the European Union's case law, and the use of English as a tool for legal harmonization in a multilingual system.
